EDUCATION

University of Manchester

Manchester, UK

Bachelor of Arts: Economics and Data Analytics

Expected 2027

- Average Grade: 71% (First Class)
- Awards: Global Bicentenary Futures Scholarship for 3 consecutive years
- Relevant Modules: Financial Decision Making, Quantitative Methods, Essential Enterprise

Projects:

- FellowMates – opportunity analysis: developed product strategy, market sizing and unit economics for a two-sided, accessibility-verified housing marketplace for disabled students, including a phased Go-To-Market roadmap and financial model

WORK EXPERIENCE

The Ditchley Foundation

Remote

Research Intern

Jun - Sep 2026

- Mapped attendee engagement patterns and demographic trends across a decade of Ditchley events using graph-database analysis (Cypher, Neo4j) to trace connections, identify drop-offs, and prioritise follow-up outreach for at-risk attendee segments
- Developed and communicated research findings and recommendations to a senior stakeholder weekly, producing briefing material on G20 and UK 2027 Presidency for the Foundation's formal dialogue

Pratham Education Foundation

Delhi, India

Intern, Measurement, Monitoring and Evaluation

Jun - Sep 2025

- Tracked real-time attendance and performance for 10,000+ students across states by building data tracking systems in Excel, generating insights for the yearly programme report that improved the programme's outreach and resource utilisation
- Analysed learning-app data by question difficulty and format in SQL and built Tableau dashboards on engagement and success rates, directing targeted app improvements

EXTRACURRICULAR ACTIVITIES

SOSS GitHub and Data Reproducibility Team

Manchester, UK

Student Partner

Jan 2026 - Present

- Delivered peer-led workshops for 20+ students on R and web scraping fundamentals
- Raised visibility of the team's open data practices by presenting to an audience of 50+ academics at the university scholarship showcase, leading to further cross-organisation collaborations with libraries and social enterprises across Manchester for community data labs

180 Degrees Consulting Manchester

Manchester, UK

Vice President

Jan - Jun 2026

- Led a student-run consultancy team of 20 on three concurrent consulting projects for social enterprises, managing workflows and client expectations to deliver all three on time
- Designed a training programme and led recruitment for a new cohort of 30 consultants, screening 200+ applicants and conducting 30+ interviews
