PROFESSIONAL SUMMARY

Third-year Economics and Data Analytics student at the University of Manchester, seeking part-time and 2027 graduate analyst roles applying quantitative and data-driven thinking across research and strategy. Proficient in R, Python, SQL, and Tableau, with additional experience in Cypher for graph databases. Currently on a UK Student visa, permitted to work up to 20 hours per week during term time.

EDUCATION

University of Manchester

Manchester, United Kingdom

Bachelor of Arts in Economics and Data Analytics (First Class Average)

Expected 2027

- **Awards:** Global Bicentenary Futures Scholarship awarded by University of Manchester
- **Relevant Modules:** Answering Social Research Questions with Statistical Models, Quantitative Methods
- **Extracurriculars:** BA Econ Peer Mentor; Uom Fintech

WORK EXPERIENCE

The Ditchley Foundation

Remote

Intern

June 2026 - Present

- Mapping attendee engagement patterns across Ditchley events over the past decade by writing Cypher queries (Neo4j) to trace connections and identify drop-offs to prioritise follow-up outreach.
- Producing briefing material on G20-related geopolitical developments to be incorporated into the Foundation's formal briefing for an upcoming dialogue.

SOSS GitHub and Data Reproducibility Team

Manchester, United Kingdom

Student Partner

January 2026- Present

- Delivered peer-led workshops for 20+ students on R and web scraping fundamentals, undertaking an introductory project analysing movie ratings.
- Raised visibility of the team's open data practices by presenting the work to an audience of 50+ academics at the university scholarship showcase, which led to further cross-organisation collaborations.

180 Degrees Consulting Manchester

Manchester, United Kingdom

Vice President

January 2026 - June 2026

- Supervised three concurrent consulting projects by managing workflows, timelines, and performance across teams totalling 20 consultants, which resulted in on-time delivery across all three projects.
- Recruited and onboarded a new consultant cohort by screening 200+ applicants and conducting 30+ interviews, and designing a training programme.

Project Leader

October - December 2025

- Delivered a branding and communication strategy for Caemba Youth (Quito, Ecuador) by leading a team of six through an 8-week research and strategy project, which resulted in a rebrand adopted across the charity's social channels.
- Identified key gaps in mission clarity and user experience by conducting a strategic audit spanning competitor analysis and internal staff surveys, with recommendations adopted by the client.

Pratham Education Foundation

Delhi, India

Intern, Measurement, Monitoring and Evaluation

June - September 2025

- Maintained real-time attendance and performance tracking for 10,000+ students across states by building Excel systems using advanced functions and delivered findings to the project lead.
- Surfaced student retention and progress trends across the Second Chance programme by extracting and transforming learning-app data using SQL and building Tableau dashboards to identify specific drop-off points in the learning journey.

SKILLS

Languages: Fluent in English and Hindi

Tools: Microsoft Excel, PowerPoint, MySQL, Tableau, R, Python, Figma, Miro, Canva, GitHub, Neo4j
